Summary:

Front-end developer with a background in UI/UX design and knowledge in Back-end Development, skilled in creating user-friendly and engaging web applications using the latest technologies and frameworks.

Technical Skills:

- **Front-end:** HTML // CSS // JavaScript // React.js
- **Miscellaneous:** Firebase // Node.js // Express.js // MongoDB // Tailwind CSS
- **Design:** Figma // Adobe XD

Projects:

[Google Keep Clone](#) - A web app that allows users to create, edit, and delete notes.

- Implemented the frontend using HTML, CSS, and JavaScript, and used local Storage to store the notes data in the browser.
- Followed the Google Keep design and layout and used responsive web design techniques to ensure compatibility across different devices and screen sizes.

[Recipe App](#)

- Developed a web-based application that allows users to search for a variety of food recipes using React.js.
- Integrated the Edamam **API** to fetch and display accurate and up-to-date recipe information, such as ingredients, calories, and cooking instructions.
- Deployed the app on Netlify and tested its performance and responsiveness across different browsers and devices.

[Meme Master](#) - A web app that challenges the user to complete the missing text of famous memes and internet jokes.

- Built the frontend using **React** and applied various methodologies, such as hooks, custom components, props, state, and routing.
- Created a set of questions and answers based on popular memes and internet humor.

[Tenzies Game](#)

- Developed a web-based version of the classic dice game Tenzies using React.js and CSS.
- Implemented functional components, React hooks, and event listeners to create a dynamic and interactive user interface.
- Enabled players to roll ten dice, freeze them to achieve a specific combination.

Experience:

UI/UX Designer at Madhyam

// February 2023- April 2023, Remote

Worked as a UI/UX designer and contributed to design their app from scratch. Involved in the entire design process of the app, from ideation to prototyping to testing.
